

UPLYFT ACADEMIC & AI OPERATIONS SUITE

The comprehensive institutional handbook. Explores every portal, sidebar navigation hub, screen layout, button control, and step-by-step operational procedure with live UI screenshots.

Principal Leadership

Campus setup, term lifecycle, AI timetable matrix, staff delegations & master controls.

Coordinator & Staff

Dynamic assigned rights, student admissions, class-subject architecture & roster oversight.

Faculty & Teaching

Interactive attendance, daily diary, LMS content repository & Cambridge mock exam generator.

Accounts & Finance

Fee voucher generation, 3-part bank challans, AI expense calculation, ledger & salary disburser.

Student & Parent

Class schedules, fee challan downloads, 24/7 RAG AI tutor, practice quizzes & report cards.

Master Directory

Unified fast search, student dossiers, teacher portfolios, salary slips & password reset desk.

Chapter 1: Principal Executive Portal & Dashboard

Executive KPIs, sidebar navigation hubs, quick actions, and campus analytics.

/principal/dashboard

• Role: Principal / Executive Leadership. The command center for the entire educational campus.

Sidebar Navigation Hubs & Menu Structure

SIDEBAR MENU HUB	SUBMENU OPTIONS	FUNCTIONAL SCOPE & WHAT IT CONTROLS
Organization Hub	Campuses, Branch Settings, Multi-Tenant Toggles	Configures multi-branch campuses, address profiles, and campus-level isolation.
Academics Hub	Academic Terms, Classes, Dynamic Tracks, Subjects, Rooms	Manages active terms, syllabus classes, room infrastructure, and elective tracks.
Timetable Hub	AI Timetable Matrix, Days & Hours, Subject Allocations	Runs multi-constraint scheduling engine, collision detector, and Excel exporter.
Faculty & Staff Hub	Staff Roster, Onboard Staff, Master Delegations, Rights	Manages teacher profiles, assigns roles, and delegates coordinator permissions.
Admissions Hub	Register Student, Active Roster, Bulk CSV Importers	Student admissions, document uploads, class allocations, and roster exports.
Accounts & Fees Hub	Fee Vouchers, 3-Part Challans, General Ledger, Salaries	Issues fee vouchers, prints bank challans, AI expense calculation, and payroll.
Master Directory	Global Search, Student Dossiers, Salary Slips	Live search across campus, student dossiers, teacher portfolios, and salary slips.

Dashboard Action Buttons Breakdown

BUTTON / ACTION CONTROL	VISUAL STYLE	SYSTEM BEHAVIOR & EXECUTION DETAILS
+ Register Student	+ Register Student	Navigates directly to the multi-step student admission form at /principal/students/create.
+ Onboard Faculty	+ Onboard Staff	Opens staff onboarding wizard at /principal/staff/create to register teachers and set salary.
Generate Invoices	Fee Vouchers	Opens batch voucher generator at /principal/invoices/create with automatic scholarship discounts.

Confidential • UPLYFT Educational Operating System

UPLYFT Master Handbook • Page 2

Chapter 2: Academic Setup & AI Timetable Matrix

Classes, sections, elective tracks, rooms, constraint rules, and AI timetable generation.

[/principal/timetables](#) • Role: Principal & Staff with timetables rights. Multi-variable constraint solver.

Timetable Engine Buttons & Controls Breakdown

Button / Action Control	Visual Style	System Behavior & Execution Details
Days & Hours Config		Configures weekly active days (Mon–Sat), daily opening time (e.g. 08:00 AM), slot duration, and lunch breaks.
+ Add Manual Slot		Locks a specific Teacher, Subject, Section, Room, and Day/Time Slot. Overrides algorithmic assignments.
Auto-Generate AI Timetable		Executes the constraint solver algorithm. Balances teacher workload, room availability, and period quotas.
Export Matrix (Excel)		Exports full multi-sheet spreadsheet: Master Campus Grid, Section-wise schedules, and Teacher rosters.
AI Timetable Chatbot		Natural language queries: "Find free physics teachers on Thursday period 3" or "Reassign Room 102".

How to Generate a Campus Timetable (Step-by-Step)

- 1

Configure Campus Hours
Click **Days & Hours**. Select teaching days (e.g. Mon–Fri), specify campus opening time, and define lunch / break intervals.
- 2

Assign Teachers to Subjects
Navigate to **Subject–Teacher Allocations**. Assign qualified faculty to each class section and configure weekly period quotas.
- 3

Execute AI Generation Engine
Click **Auto-Generate AI Timetable**. The system calculates clash-free room, teacher, and section allocations in seconds.
- 4

Review Grid & Publish
Inspect the visual grid for highlighted conflicts. Use drag-and-drop or manual adjusters, then click **Export Excel** or broadcast to student portals.

Chapter 3: Staff Delegations & Student Admissions

Faculty onboarding, role authority presets, student admissions, and dossier records.

[/principal/staff](#) • **Role:** Principal Only. Delegates coordinator rights and onboards new institutional staff.

FCA Haroon Rashid (Dean) principal.acca@apex.edu.pk	PRINCIPAL	Primary Principal	Edit Role, Details, Rights

Staff Management Buttons & Delegation Controls

Button / Action Control	Visual Style	System Behavior & Execution Details
+ Onboard New Staff	Onboard Staff	Opens staff registration form. Inputs: Full Name, Email, Phone, Role, Qualification, Joining Date, and Basic Salary.
Master Delegated Toggle	Master Delegated	Promotes staff member to <i>Master Delegated Admin</i> . Enables coordinator access to the staff portal (/staff/dashboard).
Role Authority Presets	Apply Preset	Applies standard permission presets (e.g. <i>Senior Coordinator</i> , <i>Admissions Officer</i> , <i>Head of Accounts</i>).
Granular Checkboxes	Checkboxes	Allows granular per-module permission assignment (e.g. <code>timetables:view</code> vs <code>timetables:edit</code> , <code>invoices:edit</code>).
Save Permissions (Bulk)	Save Rights	Commits all permission checkboxes to the database. Updates user sidebar links and dashboard tiles dynamically.

Student Admissions Workflow (Step-by-Step)

1

Open Registration Form

Navigate to **Admissions** (/principal/students/create). Enter Student Name, DOB, Gender, and Guardian details.

2

Select Academic Class

Assign student to target Class and Section. System automatically maps standard subjects and elective curriculum.

3

Attach Documents & Photo

Upload student passport photo, birth certificate, and previous school leaving certificate for digital records.

4

Submit & Issue Challan

Click **Submit Registration**. System creates student portal account and generates initial admission fee voucher.

Chapter 4: Faculty & Teacher Operations Portal

Daily schedule, interactive classroom attendance register, daily diary, and LMS curriculum repository.

/teacher/dashboard

• Role: Faculty & Teaching Staff. Quick access to daily classes, attendance, diary, and tests.

Interactive Attendance Register Breakdown

Button / Action Control	Visual Style	System Behavior & Execution Details
Select Class & Section	Dropdown Filter	Loads student roster for selected assigned class and section. Displays student photo, roll number, and name.
Mark All Present	All Present	Instantly sets all students in the active roster to <i>Present</i> with a single click.
Status Radio Buttons	P / A / L / Lv	Toggles individual student attendance status: Present (Green) , Absent (Red) , Late (Amber) , or Leave (Purple) .
Submit & Save Attendance	Submit Roster	Saves attendance to database. Dispatches instant SMS/app notification to guardians of absent students.

Teacher Daily Diary & Homework Logbook

/teacher/diary

• Broadcasts daily homework, classwork covered, and upcoming test announcements to students and parents.

Post Diary Entry

Click + **Post Daily Diary**. Select Assigned Subject, Class Section, Classwork Covered, Homework Assignment, and upcoming Test Dates. Attach worksheet PDFs if needed.

Instant Parent Broadcast

Click **Publish Entry**. Immediately delivers diary card to enrolled students' dashboard feeds and parent mobile app notifications.

Chapter 5: Cambridge Mock Exams & AI Study Tutor

AI exam generation, Cambridge O/A level mock papers, in-place editor, and RAG AI tutor.

[/lms/mocks](#)

• **Role:** Faculty & Academic Coordinators. Generates authentic mock examination papers.

Mock Exam Action Buttons Breakdown

BUTTON / ACTION CONTROL	VISUAL STYLE	SYSTEM BEHAVIOR & EXECUTION DETAILS
+ Create Mock Exam	+ New Mock Exam	Opens exam setup dialog. Selects Subject (e.g. <i>O-Level Physics 5054</i>), Paper Component (Paper 1 / Paper 2), and Target Class.
Upload Past Papers Pool	Past Papers	Uploads past exam PDFs and marking schemes to expand the AI's question synthesis database for that subject.
Generate AI Mock Blueprint	Generate Paper	Generates an authentic mock exam blueprint containing structured MCQs, multi-part structured questions, diagrams, and marking rubrics.
In-Place Question Editor	Edit Inline	Click any question text or mark allocation directly on the preview to edit wording, replace diagrams, or modify mark schemes in real-time.
Print Official Question Paper	Print Paper	Renders a standardized exam booklet with school header, candidate name/roll number boxes, instructions, and formatted questions.
Toggle Digital Exam Mode	Digital Mode	Switches exam delivery from physical print mode to a timed digital assessment accessible directly within the student portal.

24/7 Grounded RAG AI Study Assistant

[/lms/chatbot](#)

• Students and teachers can ask natural language questions grounded strictly on uploaded school textbooks.

Curriculum-Grounded AI Architecture: When teachers upload chapter PDFs in `/lms/subjects`, the AI vectorizes the text into vector embeddings. When students chat, the bot retrieves the exact book passages to answer without hallucinating.

Chapter 6: Accounts, Fee Vouchers & AI Auditing

Fee voucher generation, 3-part bank challans, AI expense calculation, ledger, and salary payroll.

[/staff/accounts](#) • Role: Accountant / Bursar. Campus financial ledger, AI expense audit, and salary payroll.

Fee Management Buttons & Bank Challan Controls

BUTTON / ACTION CONTROL	VISUAL STYLE	SYSTEM BEHAVIOR & EXECUTION DETAILS
+ Single Fee Invoice	+ Single Voucher	Selects student, tuition fee amount, custom fee heads (Library, Lab, Sports), due date, and fine after due date.
+ Bulk Class Invoices	Bulk Invoices	Generates monthly fee vouchers for all enrolled students in a selected class/section with automated scholarship deductions applied.
Print 3-Part Bank Challan	Print Challan	Renders standardized 3-part printable voucher: Student Copy , Bank Copy , and Institute Copy with barcode.
Mark Invoice As Paid	Mark Paid	Records payment: selects payment channel (Cash / Bank Deposit / Online), enters reference number, marks voucher paid, and generates receipt.
AI Expense Entry	Record Expense	Records operational disbursement: inputs amount, vendor name, invoice receipt photo, and triggers AI audit to verify anomalies or duplicate billings.
Auto-Disburse Salaries	Auto-Disburse	Calculates net salary for all active faculty members (Base Pay + Allowances - Deductions) and outputs a bank transfer disbursement sheet.

Fee Challan Generation Workflow (Step-by-Step)

1

Select Class & Billing Month

Navigate to **Fee Invoices** (/principal/invoices/create). Select target class and specify the billing month and due date.

2

Apply Scholarships & Heads

Add custom fee heads (Tuition, Lab, Exam Fee). The system automatically subtracts active scholarship discount percentages.

3

Generate & Print Challans

Click **Bulk Generate Invoices**. Click **Print Challans** to generate official 3-part bank vouchers for student distribution.

4

Reconcile Payments

When fees are deposited, click **Mark Paid** on the invoice row. Enter bank deposit reference number and print cleared receipt.
